

# Kitchen Diary User Manual

## Login/ Register Screen

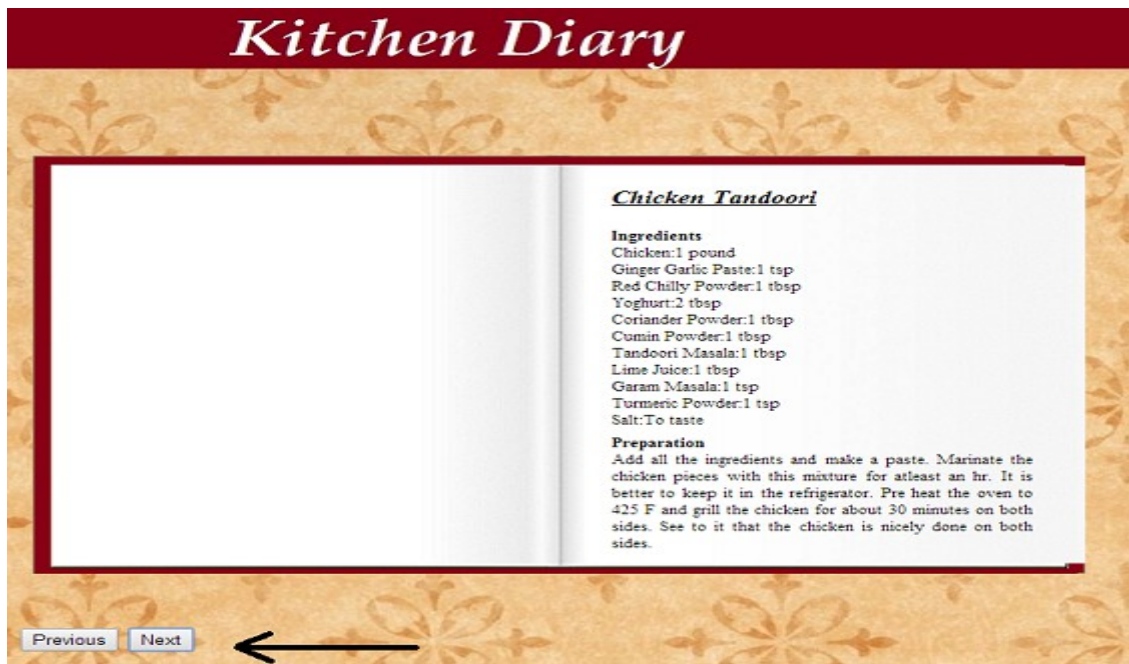

Once you login with correct credentials, the main screen will be displayed to the user.

## Main Screen

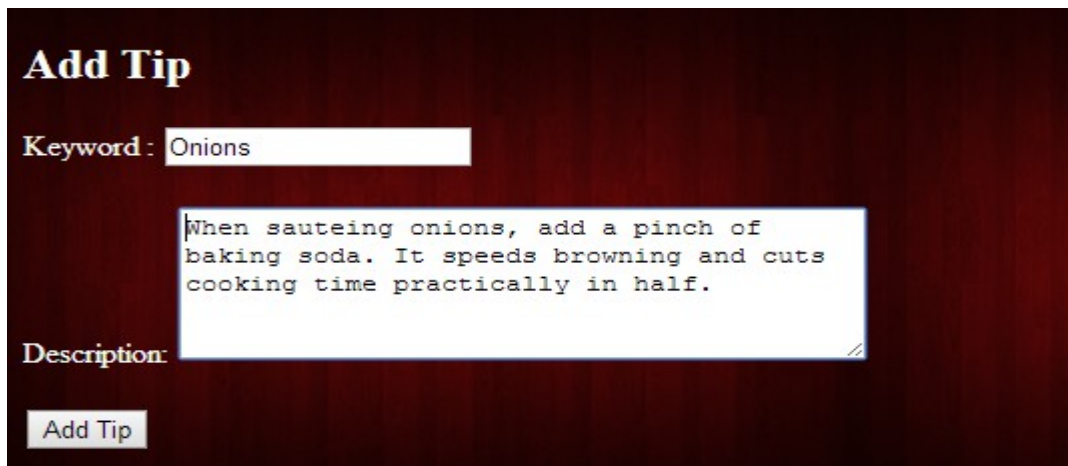

User can browse through the recipes in the recipe book by pressing the previous and the next button placed below the recipe book.

## Add/search cooking tips

Users can add cooking tips by clicking on "Add Tip" link on "Cooking Tips" tab. Enter the keyword and the description of the cooking tip. After entering these details, press the "Add Tip" button and the data will be stored.

**Add Tip**

Keyword:

Description:

To search for a cooking tip, users can provide a keyword and the details will be displayed.

**Search Tip**

Search Keyword:

*When sauteing onions, add a pinch of baking soda. It speeds browning and cuts cooking time practically in half.*

## Add/search recipes

After clicking the "Add Recipe" link in the Recipes tab, user can enter the details of their recipe. After entering these details, press the "Add Recipe" button and the data will be stored. Users can either choose the option of sharing the recipe with others.

To search the recipe, click on the "Search Recipe" link in the Recipes tab. Enter the recipe you want to search, and a list of recipes (including the recipes shared by other users) will be displayed. To view the recipe details, click on the recipe name. The details will be displayed.
